featuring
Internationally Acclaimed Political Analyst

Michael Parenti
speaking on
“Rational Wars and Deliberate Deceptions”

Dr. Michael Parenti is the author of 25 books covering a wide range of subjects, including politics, history, empire, wealth, class power, culture, ideology, media, environment, gender and ethnic life. In “Rational Wars and Deliberate Deceptions,” Michael Parenti will argue that U.S. global wars are not mistakes nor ‘misguided.’ In fact, they serve the giant corporate powers quite well. U.S. political and military intervention throughout the world displays not confusion but impressive consistency regarding who is supported and who is demonized and targeted. Specifically it comes down to who plays along with global capitalism and who dares to resist. Parenti will also deal with the way critical analysis is dismissed as ‘conspiracy theory’ and public discourse is manipulated by fear-inducing deceptions.
